

PC an Board

Beitrag von „jonee“ vom 26. August 2004 um 09:21

I'm also considering installing a carpc, but i'll wait until there's a solution for the 'no video while in motion' issue.

I want to use the existing NAVI monitor as CARPC monitor.

If you want more info on how to install a CARPC, you'll find plenty of info on <http://www.mp3car.com>. But nobody there tried it in a Touareg.

Or on vvvortex, sup44 did this install:
